

Johanna Marie Lasala

WEB DESIGNER · FRONT-END DEVELOPER · VIBE CODER

Front-end web developer and web designer building responsive websites and landing-page interfaces. I use **Claude AI** to plan, build, troubleshoot, and improve projects while manually refining the code and visual details.

EXPERIENCE

Front-End Web Developer / Vibe Coder

Personal Portfolio Project

- Built and refined a responsive portfolio using HTML, CSS, JavaScript, and **Claude AI**.
- Used Claude AI for feature planning, implementation, troubleshooting, and styling iteration while reviewing and editing generated code.
- Designed responsive desktop and mobile layouts and used GitHub for version control and deployment.

HTML CSS JavaScript Claude AI GitHub

Web Developer

Academic Web Projects

- Developed academic websites using HTML, CSS, and JavaScript.
- Implemented responsive layouts and user-friendly navigation for desktop and mobile.
- Collaborated with classmates through development and revision.

HTML CSS JavaScript Responsive design

Computer Programmer

Visual Basic Project

- Created a Student Management System with data-entry forms and record management.
- Tested and debugged the application before submission.

Visual Basic Debugging

SELECTED PROJECTS

Personal Portfolio Project

Responsive portfolio and landing-page website

Used Claude AI for planning and implementation, then refined the code, fixed responsive issues, and prepared the site for GitHub deployment.

Academic Web Projects

Responsive websites for academic requirements

Implemented layouts and collaborated with classmates through development and revision.

SKILLS

Vibe Coding / AI

Tools & Workflow

VS Code · GitHub · Canva · CapCut · Build, test, refine

EDUCATION

Bachelor of Science in Information Technology

Southwestern University–PHINMA
Cebu City, Philippines
2020–2024

ABOUT

I create clean, responsive interfaces by combining front-end development, visual design, and AI-assisted workflows. Claude AI helps me move from idea to working implementation faster while I review and refine every result.
